Client	Transfield Services	Division	Civil
Contact	Troy Allcock	Market	Coastal Infrastructure
Contract	Lump Sum	Commenced	October 2011
Location	Jurien Bay, WA	Completion	December 2011

PROJECT OVERVIEW

The Department of Transport is undertaking expansion works to the existing boat launching ramp at Jurien Bay Harbour to overcome the congestion on both land and water currently being experienced at the existing facility.

Watpac is widening the existing boat ramp with two additional ramps to double it's current capacity. Modifications and extensions to the existing car park are also being constructed . Widening of the existing boat ramps also involves relocation of the existing shelter and modifications to the adjacent area to provide extended reverse bays.

The boat ramp is to remain operational during construction to minimise any inconvenience to the facility users.
